Support Project Kiks Ebola Prevention Activity (EPA) in Liberia

- Help save your life and that of your loved ones. Tell your community leader if someone in your family/household has the signs and symptoms while you wait for a health team to come.
- Do not touch an infected person or their body fluids including blood, vomit, faeces, urine, do not touch or eat bush meat and do not eat bats.
- Do not run away from your community or hide sick people, this can spread Ebola. Help save your life and that of your loved ones.
- Wash your hands regularly – use soap or chlorinated water

Communities that we visited and carry on awareness and prevention messages on Ebola are as follows:

1. Riverview Community
2. Swaggart Island Community
3. Maryland Center Community
